

Team Results, Area Winter Dressage, 20th February 2011

A quick guide to the results: If you haven't looked at these before it can be very confusing, so here is a brief explanation.

- Each arena is judged separately (2 xP18, 2X N24) as a single Area competition, and each competitor is placed within it
- Next to each competitors name on the table, after their score and %mark is their overall placing in their class (Pos. Area)
- The next column shows the placing for only the teams entered for the BRC National qualifiers (Qual) some of the higher placings are the same if no-one from an Area only team scored higher.
- The team points are made up of the 3 best scores in the team. Column A shows the overall Area score, column B the qualifiers only.
- The final 2 columns show the team placings firstly for the overall Area Competition, secondly the qualifiers only. Junior teams are placed separately from Senior teams. There is no qualifier placing for some teams who had a member with an invalid vacc. Record – beware of vets assuring you its OK – they often know the medical, not the Jockey Club facts.
- 2 senior and 1 junior team will qualify for the National Championship. This year the 2 highest placed Senior teams had to be split using the 4th rider.
