Competitors can compete at more than one height

Riders jump two rounds. Riders will jump the first round and then the second round separately. The second round will be run as a single phase competition, which will combine the second round and the jump-off. The first half of the course should be set at the second round height, with the second part of the course set at jump-off height. The course should be timed in two parts, with the second half being recorded as the jump-off. The jump-off will follow straight on from the first part of the course without stopping. All team and individual members (*unless the individual is eliminated in first round*) will go forward to the second part of the second round (*jump-off*) unless eliminated in the first half. The second half of the second round (*the jump-off*) will be classed as both the team and individual jump-off. This applies to teams and individuals.

Should a team member be eliminated before reaching the jump-off phase in the second round they will **NOT** continue forward to the jump-off section and the team will continue as a team of three. The Official Steward reserves the right to stop anyone who is in multiple classes if BRC feel the horse's welfare is compromised.

Eligibility in conjunction with CR Appendix 2 & 3. Horses may compete in any competition for which they are eligible in a competition year (1 April to 31 March).

- Upward progression is permitted in the same discipline, for example a horse could do the BRC HT 90 in the summer season and BRC CH 100 in the winter season or a horse could do the 80 show jumping in the summer and move up to 90 show jumping in the winter.
- No horse may compete twice in the same team.
- No horse can be ridden over the same course of jumps on the same day. Juniors and seniors may share horses for show jumping provided the competition is split into senior and junior. In this instance horses for example may compete in the Senior 80 SJ and the Junior 80 SJ or the Senior 80 SJ and the Junior 90 SJ.
- A horse may only compete at consecutive heights in show jumping for example a horse may compete in 80cm/90cm classes or 90cm/100cm classes, provided they meet eligibility requirements and only once is as part of a team. BUT horses competing in the 70cm will not be permitted to compete at any other height in show jumping in the competition year other than upward progression.
